

Vision

To empower individuals and families across the life span to manage the challenges of living and working in a diverse, global society. Our unique focus is on families, work and their inter-relationships.

Mission Statement

To prepare students for family life, work life, and careers in family and consumer sciences by providing opportunities to develop the knowledge, skills, attitudes, and behaviors needed for:

- strengthening the well-being of individuals and families across the life span;
- becoming responsible citizens and leaders of family, community and work settings;
- promoting optimal nutrition and wellness across the life span;
- managing resources to meet the material needs of individuals and families;
- balancing personal, home, family, and work lives;
- using critical and creative thinking skills to address problems in diverse family, community, and work environments.
- successful life management, employment, and career development;
- functioning effectively as providers and consumers of goods and services;
- appreciating human worth and accepting responsibility for one's actions and success in family and work life.
